### **Island Destinations Assists Stranded Mexico Travelers**

*Published on: November 7, 2005*

Island Destinations is coming to the aid of vacationers who have had their holiday and winter getaways to the Cancun and Riviera Maya regions of Mexico's Yucatan disrupted due to the effects of Hurricane Wilma. The company will give an immediate total refund (excluding any penalties imposed by airlines) to those clients whose trips have been made impossible by hotel closures. For those clients who wish to rebook their vacations in Mexico or elsewhere, Island Destinations will do whatever it can to accommodate them. Knowing that additional costs may be associated with rebooking, the company will cover up to \$250 per booking in increased costs. Travelers must rebook their Island Destination getaway by Nov. 30, 2005 for travel completed by July 31, 2006. This offer can be combined with other hotel incentives. For more information, call 888-454-4422 or visit [www.islanddestinations.com](http://www.islanddestinations.com).
