Island Destinations Offers Free Trip Protection

Published on: September 2, 2005

Island Destinations is offering complimentary post-departure trip protection on all bookings made between now and Nov. 30, 2005. Island Destinations' first complimentary post-departure trip protection, which begins once travelers begin their trip, is valid for all travelers listed on the reservation, and includes travel, baggage, medical and accident protection. With the average Island Destinations booking costing \$7,500 per couple, the complimentary post-departure trip protection can save travelers hundreds of dollars. For example, post-departure trip protection for the average Island Destinations booking could cost up to \$133 per person up to age 34, \$149 per person ages 35-60 and \$193 per person ages 61-70. Island Destinations' free post-departure trip insurance comes on the heels of Delta Air Lines announcing a risk-free cancellation policy that allows travelers to cancel certain tickets within 24 hours without penalty if their travel plans change. For more information, call 877-903-2525 or visit www.islanddestinations.com.
